The Investment Manager is authorized to pay such broker or dealer a commission for executing a portfolio transaction for the Trust which is excess of the amount of commission another broker or dealer would have charged for effecting that transaction if FMR determines in good faith that such amount of commission is reasonable in relation to the value of the brokerage and research services provided by such broker or dealer. The agents and nominees of FMR will be required to exercise the same degree of care in performing each such service without exception as FMR would be obligated to exercise if it were performing the same itself. The appointment of any such agent shall not relieve FMR of any of its liabilities or responsibilities hereunder.

## VIII. TERMINATION

This Agreement shall take effect on the date of its execution (the "Effective Date"). This Agreement shall continue in effect until the date on which the MAS Agreement is terminated in accordance with the terms of the MAS Agreement. It is the intent of the Trustees and FMR that this Agreement and the MAS Agreement are inextricably related and that the termination or expiration of one of these contracts shall result in the termination or expiration of both of them. Except as provided in the MAS Agreement, if this Agreement is terminated during any period of time for which FMR has or has not been compensated, the fee due to FMR for such period shall be prorated to the date of termination

## IX. MISCELLANEOUS

Neither FMR nor any of its officers, employees, agents or members shall have authority to bind the State or receive any benefits, worker's compensation or other emoluments provided by the State to its employees.

## SCHEDULE A

### Investment Management Guidelines for Delaware College Investment Plan Trust

The Trustees hereby establish investment guidelines dated November 16, 2006, as amended and revised on October 4, 2011, February 13, 2012, August 1, 2013, January 1, 2015, October 13, 2016, and September 1, 2019.

The Trust is composed of a number of investment pools ("Portfolios") dedicated exclusively to the management of the assets contributed by donors for ultimate direction to qualified education expenses.

There shall be three types of Portfolios. The first type of Portfolio ("changing allocation portfolios") shall be designed to accommodate beneficiaries of similar ages. The second type of Portfolio ("static allocation portfolios") shall be designed to accommodate beneficiaries without regard to age. And, the third type of Portfolio ("individual fund portfolios") shall be designed to invest in a single underlying mutual fund and accommodate beneficiaries without regard to age. The Portfolios shall have the following characteristics:

#### I. INVESTMENT OBJECTIVES

The Portfolios shall have three series of changing allocation portfolios, two series of static allocation portfolios, and one series of individual fund portfolios available for investment.

The first series of changing allocation portfolios invests primarily in actively-managed mutual funds. The investment objective of each changing allocation portfolio shall be capital appreciation with reasonable safety of principal, consistent with the ages of the beneficiaries. For younger beneficiaries the Investment Manager shall place a greater emphasis on capital appreciation. For older beneficiaries, the Investment Manager shall place a greater emphasis on preservation of capital.

The second series of changing allocation portfolios invests primarily in index mutual funds. The investment objective of each changing allocation portfolio shall be capital appreciation with reasonable safety of principal, consistent with the ages of the beneficiaries. For younger beneficiaries the Investment Manager shall place a greater emphasis on capital appreciation. For older beneficiaries, the Investment Manager shall place a greater emphasis on preservation of capital.

The third series of changing allocation portfolios invests in a combination of actively-managed and index mutual funds. The investment objective of each changing allocation portfolio shall be capital appreciation with reasonable safety of principal, consistent with the ages of the beneficiaries. For younger beneficiaries the Investment Manager shall place a greater emphasis on capital appreciation. For older beneficiaries, the Investment Manager shall place a greater emphasis on preservation of capital.

The first series of static allocation portfolios invests primarily in actively-managed mutual funds. Of this series, there shall be three types of static allocation portfolios. The first type shall maintain a neutral mix over time of 100% of its assets in equity mutual funds. The investment objective of this static allocation portfolio shall be growth of capital over the long term by allocating its assets among equity mutual funds and commodities-related mutual funds. The second Portfolio shall maintain a neutral mix over time of approximately 70% of assets in equity mutual funds and 30% in bond mutual funds. The investment objective of the second type of this static allocation portfolio shall be to maximize total return over the long term by allocating its assets among equity, commodity-related, and bond mutual funds. The third Portfolio shall be invested approximately 45% in bond mutual funds and 55% in short-term bond mutual funds at all times. The investment objective of the third type of static allocation portfolio is preservation of capital by allocating its assets among bond and short-term mutual funds. Income is a secondary objective.

The second series of static allocation portfolios invests primarily in index mutual funds. Of this series, there shall be three types of static allocation portfolios. The first type shall maintain a neutral mix of 100% of its assets in equity mutual funds. The investment objective of this static allocation portfolio shall be growth of capital over the long term by allocating its assets among equity mutual funds and commodities-related mutual funds. The second Portfolio shall maintain a neutral mix over time of approximately 70% of assets in equity mutual funds and 30% in bond mutual funds. The investment objective of the second type of this static allocation portfolio shall be to maximize total return over the long term by allocating its assets among equity, commodity-related, and bond mutual funds. The third Portfolio shall be invested approximately 45% in bond mutual funds and 55% in short-term bond mutual funds at all times. The investment objective of the third type of static allocation portfolio is preservation of capital by allocating its assets among bond and short-term mutual funds. Income is a secondary objective.

The individual fund portfolios shall invest in a single underlying index-based mutual fund or non-index-based money market mutual fund. The investment objective of each such portfolio shall be the same as the investment objective of the mutual fund in which it invests. The individual fund portfolios that invest in index mutual funds shall invest as follows: Fidelity Index 500 Fund, Fidelity Total Market Index Fund, Fidelity Global ex US Index Fund, Fidelity Intermediate Treasury Bond Index Fund, or any successor funds thereof. The individual fund portfolio that invests in a non-index-based money market mutual fund shall invest exclusively in Fidelity Government Cash Reserves, or any successor fund thereof. Its investment objective shall be the same as that of Fidelity Government Cash Reserves, or any successor fund thereof, as stated in the then-current prospectus for the mutual fund.

## II. INVESTMENT PHILOSOPHY

The Trust's investment philosophy seeks to take advantage of the opportunities available through investing in separate portfolios of mutual funds geared to the investment objectives set forth above. The Investment Manager shall set the allocation of each Portfolio's assets in a portfolio of Fidelity Investments mutual funds, which shall include funds held out with the Fidelity name, consistent with the investment objectives of that Portfolio.

## III. PORTFOLIO GUIDELINES

### A. Universe

The available universe of mutual funds is as follows: (1) for the changing allocation portfolios, the available universe shall include a broad list of Fidelity Investments Series mutual funds, (2) for the static allocation portfolios, the available universe shall include a broad list of Fidelity Investments Series mutual funds, and (3) for the individual fund portfolios, the available universe shall include a broad list of Fidelity Investments retail mutual funds. For each portfolio type, the available mutual fund universe will have investment objectives and policies running across several market category and capitalization lines.

In addition, to the extent that any Portfolio receives securities or other distributions from any mutual fund as result of a redemption of such fund's shares, the Investment Manager shall have the authority to manage and/or dispose of any such securities on behalf of the Portfolios. The Investment Manager may, at its discretion, establish one or more transition accounts on behalf of the Trust to facilitate the management of any such assets.

### B. Investment Restrictions

The Portfolios will not make any investments other than those set forth in Section III.A.

### C. Changes in Portfolio Guidelines

In consultation with the Investment Manager, the Trustees may make such changes from time to time in the investment guidelines set forth in A and B above as it deems beneficial to accomplish the purposes of the Trust. Any approved changes to the investment guidelines shall be implemented by the Investment Manager as soon as reasonably practicable following such approval.

## SCHEDULE B

### Fee Schedule

The Investment Manager shall be entitled to receive a fee as follows:

Except as provided in the following paragraph: For Portfolios that (1) invest primarily in actively-managed Fidelity Funds, the Trustees shall pay to the Investment Manager a fee accrued and computed daily and payable monthly at an annual rate of 0.15% of the net assets in all such Portfolios; (2) invest primarily in index Fidelity Funds, the Trustees shall pay to the Investment Manager a fee accrued and computed daily and payable month at an annual rate of 0.08% of the net assets in all such Portfolios; and (3) invest in a combination of actively-managed and index Fidelity Funds, the Trustees shall pay to the Investment Manager a fee accrued and computed daily and payable monthly at an annual rate of 0.10% of the net assets in all such Portfolios. Payment shall be made immediately following the end of each calendar month.

The tables illustrated in this Schedule B reflect the Delaware Plan's fee and expense structure for each Portfolio as of March 31, 2020, unless otherwise noted, and as presented in the Delaware Plan Fact Kit or any supplement thereto. The fees and expenses referenced in the tables represent the Delaware Plan's fees and expenses on a particular calendar date and are subject to change based on a variety of factors, including but not limited to underlying mutual fund expense changes, asset allocation adjustments, and state and/or program manager fee modifications, as agreed upon by the parties.

With respect to an amount equal to the sum of the amounts in all accounts in any nationally-marketed Fidelity advisor-sold 529 plan where the Participant is a resident of Delaware at the time of the establishment of the Account, the Investment Manager's fee under this Agreement shall be reduced by an amount accrued and computed daily and payable monthly at an annual rate of 0.10% of the assets in such Accounts.

The Investment Manager will collect all fees from the assets of the Trust. Fees shall be payable solely out of the assets in the Accounts.

The Trustees agree and acknowledge that in addition to the charges described above, each of the mutual funds that are chosen by the Investment Manager also has (1) investment management fees and expenses that reduce the return on the applicable mutual fund but are not payable by the Trust or any Portfolios thereof, and (2) a portion of such underlying fund fees or expenses are payable to Investment Manager or its affiliates for fund management or other services provided in connection with such funds.

The Investment Manager agrees and acknowledges that no assets of the Trust shall be invested in any mutual fund if a sales load would be imposed on that investment.

Immediately following the end of each calendar month, the Investment Manager shall provide the Office of the State Treasurer with a report reflecting all fees paid to the Investment Manager for the prior calendar month.
